

TVA Brown's Ferry/Watts Bar 2016

Training Mentor

Case Study- Staff Aug

Client (Plant)	Period of Performance	Brief Description of Project
TVA-BFN/WBN	2016	Operator Training for "Technical Specification Rules of Usage"
Problem/Issue		Action Taken
BFN/WBN operations/engineering understanding of the "Rules of Usage" has caused some documented issues with plant operations.		Recommended to the Corporate Functional Area Manager (CFAM) to consider EXCEL to provide/mentoring additional training.
Solution		
EXCEL currently has contract with TVA CFAM Training to mentor Rules of Usage Training and Safety Function Determination Program Training.		
Benefits to the Client		
Safety Margin, Regulatory Margin, Operational Margin, Economic Margin		
Lessons that might apply to other clients		
Operator Training for "Technical Specification Rules of Usage" (which has been done for other prospective clients) provides an opportunity to identify additional areas of weakness in Technical Specification usage/compliance.		
Feedback from Client		
WBN Training Manager fully supports Technical Specification continued training mentoring.
